Forecast for Tuesday 03 Nov 2020

Weather: Low cloud and snow, rain below around 600m, around dawn, but soon turning drier and brighter with low cloud breaking through the morning. Scattered showers will continue through the day, falling as snow above 700m, mostly towards Creag Meagaidh and Ben Alder. Dry in the evening, but further showers and lowering cloud towards midnight.

Chance of cloud free mountain/hill tops above 800m: Around dawn 20% chance of clear tops with fairly extensive cloud based around 400-500m. By mid-afternoon 60-70% chance with most cloud bases above the summits and just patches around 700m.

Visibility: Poor or very poor early on Tuesday morning in the rain and snow, soon improving to moderate during the morning and possibly good or very good by mid-afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Note the low freezing level, with wintry showers expected and possible accumulations of 2-5cm at higher levels from overnight snow. This will also allow for a noticeable wind chill factor in the fresh westerly winds on the higher hills.

Forecast for Wednesday 04 Nov 2020

Weather: A mainly dry and cloudy day with a few breaks likely. Some light rain or snow is expected early in the morning and later in the evening. Feeling very cold on the summits in the fresh northwesterly breeze.

Maximum wind: Northwest 15 gusting 25 mph.

Chance of cloud free mountain/hill tops above 800m: Around 70%, patchy cloud around 700-800m may shroud the summits at times.

Visibility: generally good or very good but may temporarily deteriorate poor in any rain or snow in the morning and after dusk.

Temperature: **Glens:** Plus 1 rising to 8 Celsius
At 800m: Plus 1 Celsius
Freezing level: Around 900m rising later in the day.
